

Initial post-service decision - August 28, 2026

N1 | Claim and decision

SYNTHETIC / DEMONSTRATION DATA. Notice date: August 28, 2026. To Avery Rowan, member SYN-M1042. Claim SYN-C260812-A; service August 12, 2026; Seabright Anesthesia Group; billed \$4,200.00. We denied this claim under plan Section 7, General network restriction. Reason SYN-NET07: non-emergency out-of-network office service. Our submitted claim record lists place of service 11 and no facility identifier. We therefore did not apply Section 8. This is not a medical-necessity determination or a separate prior-authorization denial.

N2 | How to appeal

You may submit one internal appeal within 180 calendar days after you receive this notice. The date you received it is not recorded here. Include claim/member IDs, why you disagree and supporting records. A corrected claim or phone call does not extend that deadline under this plan. Demo intake: appeals@harborlight.example (fictional; do not send). For this post-service claim we will decide your appeal within 60 days of receiving it.

N3 | Documents and further rights

You may request relevant claim records free of charge, including the submitted service-location fields and the plan provisions relied on. A final adverse appeal decision will explain any available federal external review through our contracted IRO. You may also have rights under ERISA Section 502(a) following an adverse decision on review. The plan administrator and U.S. DOL EBSA can assist with plan claims questions. This fictional abbreviated notice is for demonstration only.
